

From High Government Authority.

No authority of greater experience on food products exists than Dr. Henry A. Mott, of New York. Dr. Mott's wide experience as Government Chemist for the Indian Department, gave him exceptional opportunities to acquaint himself with the qualities and constituent parts of baking powders. He understands thoroughly the comparative value of every brand in the market, and has from time to time expressed his opinion thereof. On a recent careful re-examination and analysis he finds:

Dr. Price's Cream Baking Powder

superior to all others in strength, purity, and efficiency. Dr. Mott writes:—

"I find Dr. Price's Cream Baking Powder to be superior to all others, for the following reasons:—

1st. It liberates the greatest amount of leavening gas and is consequently more efficient.

2nd. The ingredients used in its preparation are of the purest character.

3rd. Its keeping qualities are excellent.

4th. On account of the purity of the materials and their relative proportions, Dr. Price's Cream Baking Powder must be considered the *acme of perfection* as regards wholesomeness and efficiency, and I say this having in mind certificates I have given several years ago respecting two other baking powders.

The reasons for the change in my opinion are based on the above facts and the new method adopted to prevent your baking powder from caking and deteriorating in strength.

HENRY A. MOTT, Ph. D., L. L. D."

What a Brecklenridge County Boy Saw and Heard in That Famous Section.

DEAR JOHN OF THE NEWS:—While I a Brecklenridge county boy—tired from a long journey through the mountains, and a part of Henry county today and seated in my room in a private hotel in Campbellburg thinking back of home and friends in old Brecklenridge county, I was relieved by giving through your columns a bit of history I have recently experienced while out of my county.

While driving from Eminence to New Castle here in Henry county I was viewing some of the fine Bluegrass farms and we came to one very fine farm which was quite attractive and my driver informed me that he had formerly owned the place.

A few people up here don't take the News, but they borrow it from their neighbors and all of us are keeping up with the procession of the outside world.

The Teachers' Association meets here next Saturday and Vice-President Hall (Squire) is very anxious to have a full attendance. Come, ye pedagogues, Custer welcomes you.

Oscar Alexander, while in the city, taught his wife a naive girl ring as a surprise present. At the same time, his partner, Gilbert Pile—but we are under strict promise not to tell.

As smiling and handsome as ever was "Sis" Carson as he came up from the field Sunday morning on his way to see "his best." She lived eight miles from him, but "Sis" rises every Sabbath to "set" there at eve, and he seldom fails.

Millard Harrington, who has been in Louisville for more than a year, writes that he will leave at once for Texas, Millard was raised here and is known to everybody in this part of the county. The best wishes of the community go with him to his new home.

Rich Meyer, of Harned, has been sent to purchase the property of F. R. Lyons who will move to Irvington, Ind. Mich. coming up to-morrow and it is very likely they will come to an agreement. In the event of sale, Mr. Lyons will keep his warehouse in this city. It's the dwelling and storehouse that Mr. Meyer wants.

There are some signs of sincerity that are funny to the on-looking world. The way some things happen is funny also. But they "just happen" and can't be helped. Only a few afterwards since a certain young man and his "blushing best" were strolling together. We had already strolled and were resting near the roadside unobserved. Off in the distance stood a miserable little deserted house. In looking toward it he was informed to say: "What if we were married and had to live in a house like that? Would you be contented?" A gentle smile crossed her face and she answered to our ear: "Contented!"

We'll let the News know that the invitations are out, but don't intend to say another word till they are ready for us. We'll give them names until then, for we won't.

Since debarring cattle has been introduced and become popular among us, both the clipper and saw are using us. For sale by Short & Haynes, Cloverport; Dr. R. H. McMillan, McDaniel; M. Meyer & Co., Burns; Geo. Heyser, Constantine; A. Taylor, Rosetta; Drury, Bennett & Co., Beweelyville, Ky.

"Sir, I will answer you unreservedly. I connect my presence here, not without some degree of naturalness, you must understand, with the fact that I am a young lady whom I have reared as my daughter. While I can have no idea of what your suspicions are or of what you would convict me, inasmuch as you have no evidence, I can assure you that I am something of a criminal nature. The truth in relation to that matter is Anne-lette is not my child, and Anne-lette has been my only child."

"Doubtless I have. You have parried my question very ingeniously, Mr. Dye. Let me see what you will say to the rest. You spoke of the truth in the matter. What is the truth?"

Miss Maxey went out of the house in allavoine place with no definite purpose in view. She was disappointed, vexed, even offended by what she consid-

C. Babbage, F. W. Fraize and W. R. Smart. After being with but a few hours, several prevailed upon the Capt. to spend the night. He is in favor of good roads too, and is another excellent quality, and one that every magistrate ought to have. If they are not in favor of good roads they ought not to be sent there. Good roads are the only salvation for this county. And we will never get them until we send them to the County court, who are in favor of them.

Little Willie Yearling has left "Mother Gough" and gone to his father, who has married again. Poor little fellow! Will he, say he, find such a friend as "Mother Gough"?

Young Flannery, who killed his friend Singleton with a spade while working on the road near Wolf Creek, had a preliminary hearing last Friday, and was held over on a thousand dollar bond.

The case is a very sad one and shows what angry passions can lead to. Some common throwing coils in mere fun "kill" men, self control was lost with loss of life.

A goodly number of us attended the Sales Association Wednesday and Thursday. Such a crowd of people from our own and adjoining counties! Rev. Hagedorn preached the introductory sermon which was an earnest appeal for a higher standard of Christianity. I don't think the good folks of Back Grove and vicinity should name "Hard Times," after the quantities of substantial and delicacies set for the multitude, with leaves and fishes left over. I enjoyed Bro. Vandam's sermon in the woods as much as any discourse I ever heard. He is the principle of the Brandenburg F. & M. College, and I promised to try and send him a pupil from our county, but here came Prof. Williams from Bethel College, then Prof. Eber, of Lymington. We'll not be partial, boys and girls, get the catalogue, and if you do your part the institutions, any of them, will not be disappointed. Only one animal on the ground suffered, "The Moderator's" stock. He was so busy passing apple to the handsome Brandenburg widow, that at the top of bell Dr. Dowden was informed of affairs and rushed to the rescue, saying: "which?" or was it whom? The next Association is at Gilead, the Moderator's home, where apple will be resumed for the Brandenburg widow will be there.

Mr. Mellyar, who has been in the Messenger office for about a year, succumbed at his home in the St. Cloud hotel last Wednesday morning by sending a ball through his head. He had been drinking for several days and had threatened suicide. He was genial, gentlemanly, and had the respect of the community. He had been separated from his wife for many years. His mother is living and to whom our hearts go in sympathy. Ingersoll and whisky were his slayers. Every boy, every young man, should have gazed on him and apply the lesson practically. Our kind business men defrayed all expenses of funeral and interment. Bro. Cherry made some timely remarks, and all that was mortal of a being to whom God had given a bright intellect and kind heart, was consigned to "Mother Earth." Degeneration! What a fearful state! Wife and mother gone, religion (he was once a Methodist) fled, when the demons, infidelity and whisky took possession and buried his millinery business at the same time. He was a good man, as he wished, but to meet the doom pronounced in God's own word.
